PROFESSIONAL EXPERIENCE

Deloitte

Jan 2024 – Jan 2025

Software Engineer

Hyderabad, TS

- Managed the Medical Benefits program for Oregon State (USA), ensuring accurate eligibility determination and timely delivery of healthcare benefits for residents.
- Acted as an SME in Eligibility Determination for the Medical Assistance Program, supporting system enhancements and policy updates.
- Analyzed client-reported issues (from case workers or beneficiaries), validated problem authenticity, identified root causes, and provided end-to-end resolutions within strict client billing hours.
- Delivered L3 production support, performing deep root cause analysis and debugging complex enterprise codebases and providing high-quality code fixes, configuration updates, and data corrections that resolved critical business issues. Also handled L2 support activities, including functional analysis, issue replication, impact assessment, and coordination with internal teams for smoother resolution.
- Built and enhanced application components using C#, ASP.NET Core, Entity Framework, WCF, and SQL Server, improving system performance and reliability. Utilized Corticon Rules Engine to model business rules and ensure accurate medical eligibility decisions aligned with state policies.
- Collaborated with business analysts and state clients to translate policy-level requirements into technical logic and implementable rule sets. Created SQL queries, performed data validation, and executed data fixes in SSMS to resolve client issues and maintain data integrity.
- Improved overall service delivery by proactively identifying system gaps, recommending enhancements, and reducing recurring production defects. Ensured compliance with U.S. state government standards for data privacy and benefit eligibility workflows.

PROJECTS

Hotel Vantara

- Developed **Hotel Vantara**, a full-stack application using Spring Boot with layered architecture (Controller-Service-Repository) to manage bookings, rooms, and users.
- Designed RESTful APIs and implemented business logic using Spring Data JPA integrated with MySQL for efficient data persistence.
- Built a React-based frontend with pages for login, registration, room listing, booking, and profile management.
- Integrated frontend with backend APIs to enable booking workflows and dynamic display of room and user data.

EDUCATION

M.Tech : Koneru Lakshmaiah Educational Foundation

Aug 2025 – Mar 2027

M.Tech in Computer Science Engineering , Specialization: Artificial Intelligence & Data Science

CGPA: 9.73/10

B.Tech : Koneru Lakshmaiah Educational Foundation

Aug 2019 – May 2023

B.Tech in Computer Science Engineering , Specialization: Artificial Intelligence

CGPA: 9.19/10

SKILLS

Tools & Technologies: JDBC, Hibernate, Spring, Spring Boot, .NET, React, Git, MS Excel, Node.js, Cloud Computing(AWS)

Languages: Java, C, C#, Python, SQL, HTML, CSS, Java Script

Certifications: AWS Certified Solutions Architect Associate, Wipro Talent Next Java J2EE
